

GOLDEN TRIANGLE OPTOMETRIC CENTER

is excited to announce the addition of

Dr. Flora Huang

to our practice.

Dr. Flora Huang graduated from UCLA with a Bachelor of Science degree in Psychobiology. During her undergraduate years, she worked at the Jules Stein Eye Institute at UCLA while volunteering at local private optometric practices where she found her passion for the many facets of optometry. Dr. Huang received her Doctor of Optometry degree from Southern California College of Optometry at Marshall B. Ketchum University. Her clinical externships were completed at the University Eye Center Los Angeles, University Eye Center at Ketchum Health in Anaheim, Ophthalmology Laser and Cataract Surgery Co-management practices in Las Vegas, NV and throughout the six Naval Base Medical Centers in San Diego. As a result of her education and clinical training, she is up to date with the most recent advances in myopia control, dry eye treatments, ocular disease diagnosis/management, specialty contact lenses, refractive surgery, and primary care optometry.

Dr. Huang is also an active member of the American Optometric Association, the California Optometric Association, and the San Diego County Optometric Society. She looks forward to providing quality care and service to those in the greater San Diego area while also developing strong relationships with all her patients and healthcare professionals. In her spare time, Dr. Huang loves attending San Diego Padres games with her husband as well as exploring the many beaches and hikes San Diego has to offer. She looks forward to serving the people in the community by enhancing their vision.

Welcome Dr. Dizon to Bonita Point Family Optometry!
